COSMETIC TREATMENTS

COSMETIC INJECTABLES

Feel relaxed and rejuvenated with the use of anti wrinkle injections and/or dermal fillers. Anti wrinkle injections are used to relax facial muscles to soften the appearance of lines such as your frown, forehead or crows feet. Used also to reduce teeth grinding, and tension headaches, come in for your free consultation to learn more about how Anti wrinkle injections could help you.

Anti-wrinkle injections

Brand A from \$3.95 per unit

Brand B from \$12.90 per unit

DERMAL FILLERS/SKIN BOOSTERS

Dermal Fillers are used to replace lost volume from ageing or to simply enhance the facial areas such as the Lips. Used also to reduce lines and wrinkles, lift and sculpt, this treatment gives immediate results. Dermal fillers can treat areas such as the cheeks, under the eye, chin, lips, jaw line and more. Dermal fillers last anywhere from 3 months to 2 years. Our Nurse will give you a personalized treatment plan that works with your budget in mind

From \$400

FAT DISSOLVING

A non-surgical option to reduce the double chin. Injections are made into the fullness of the under chin area which destroys the fat cells. Over a period of 8 weeks, results are noticed. A minimum of 2 treatments are recommended with a maximum of 6 allowed. With long lasting results and a high patient satisfaction rate, it's worth coming in for a complimentary consult to discuss if you are a good candidate.

From \$300

DERMAPEN 4 SKIN NEEDLING

90 Min

This is the latest available technology for rejuvenating the skin. It is a digital automated micro needling system. It creates very small channels into the skin. The effect promotes natural collagen and elastin production, whilst preserving the skins integrity. It may assist with the infusion of active ingredients, skin tightening, skin texture, lifting and rejuvenation. Other indications suitable for treatment include post-acne scars, fine lines, wrinkles, enlarged pores and stretch marks.

The clinic will be able to provide topical anesthetic prior to treatment and also will tailor the treatment speed and depth to the suitability of the client. This means, a more comfortable and results driven treatment.

From \$350

PRP Injections (Consult First For Quote)

60 Min

Platelet Rich Plasma (PRP) uses the patient's own blood to rejuvenate the skin or hair. This treatment improves fine lines, wrinkles, tone, scarring, texture, elasticity of the skin.

It can also be used to stimulate the hair follicle to prevent further hair loss and to thicken hair. After applying topical anesthetic we are able to inject your plasma deep into the dermis. Expect 24hours downtime. A series of treatments is recommended.

From \$550

THREADS

60 Min

Threads have become another popular way of tightening and thickening your skin. A small mono thread is introduced into your dermis which induce the production of collagen creating a tightening effect as well as becoming a supporting structure for your face that can last 6-12 months and sometimes even longer! Threads can be used for rejuvenation, skin tightening, lift saggingness, forehead lines and other facial wrinkles. They can also be used to add volume to areas of the face such as the cheeks.

From \$500

HIFU TREATMENTS

Ultraformer III utilises high frequency focused ultrasound (HIFU) energy to instantly contract collagen fibres and promote long term collagen production for a natural, lifted look without the downtime of a face lift. Ultraformer III is the most optimal non-invasive ultrasound device, that lifts and tightens the face as well as boosts collagen production to assist with fine lines and wrinkles. This device is also able to tighten and contour the body as well as assist with skin laxity.
